

AireSpring Call Recording

Full-Featured Call Recording and Quality Monitoring

AireSpring's call recording platform is built from the ground-up to provide high fidelity recording, efficient storage, and effortless retrieval of phone calls. Designed as an add-on for AireSpring's award-winning network voice services, including SIP Trunking, PRIs, analog lines, and the AirePBX Cloud Business Phone System, AireSpring Call Recording enables a complete call recording solution, smoothly integrating with all AireSpring voice services.

Calls are automatically recorded and saved to the cloud, where they are readily accessible through an intuitive and easy-to-use online portal. All major web browsers are supported, and our online interface requires no additional software installation. The call recording portal allows users to quickly find their recordings using powerful and flexible search criteria. Metadata, comments, and labels can be attached to the recordings, ensuring that important files are categorized for quick retrieval. Recordings can be downloaded or emailed, and support clear and precise playback with standard media players.

Benefits

AireSpring Call Recording helps ensure organizations proactively manage risks, ensuring adherence to corporate policy and regulatory requirements. Dispute resolutions are streamlined, and the recordings can be easily used and reused as a coaching and performance enhancement tool for agents and sales professionals, translating directly into higher sales and happier clients.

Manage risks and monitor performance with AireSpring Call Recording.
