

Ethernet Private Networking

Layer 2 Dedicated Ethernet Connectivity

For customers who are ready to take control of their network and get the most value for their money, Ethernet Private Networking from AireSpring is the answer. AireSpring provides a dedicated low-latency data link connection based on physical addressing, ensuring fundamental network security and allowing customers to implement custom Quality of Service (QoS) settings over their own private networks. Ethernet Private Networking is configured on a case-by-case basis, providing personalized flexibility and scalability, all while maximizing bandwidth and savings.

Improve connectivity and take control of your network.

FEATURES

Local Area Network to Wide Area Network Connectivity

Ethernet Private Networking smoothly integrates with existing LAN networks, allowing in-house IT staff to seamlessly link customer locations.

Low Latency

High capacity network ensures that the real-time transmission of business-critical applications, backed by a comprehensive Service Level Agreement.

Versatile and Flexible

Ethernet Private Networking is ideally suited to carry Internet Protocol-based applications and supports Hybrid Networking, giving your customers easy access to AireSpring's award-winning MPLS Network and Cloud Communications Suite.

Customizable Setups

Point to Point, Point to Multipoint, or Multipoint configurations enable customers to connect their locations over a secure extended LAN, or route virtual private lines from remote locations to a single hub.

Reliability and Continuity

Ethernet Private Networking supports a full range of business continuity and failover options, with the flexibility to protect your customers.

THE AIRESPRING ADVANTAGE™

Fully Managed Network with QoS

Our fully managed, owned and operated IP network with end-to-end QoS provides exceptional voice quality. Multi-carrier and multi-network redundancy delivers maximum security and uptime (available with AireSpring Managed Connectivity).

Eliminate Finger Pointing Between Providers

All services are delivered by a single vendor on a fully managed network, allowing you to avoid the finger pointing that can occur when multiple vendors are involved (available with AireSpring Managed Connectivity).

Largest Available Coverage

We cover more locations than anyone else on our network, with the largest combined footprint. Local numbers are available in over 300 countries worldwide.

Reliable and Diversified Network

AireSpring's geo-redundant network provides true network diversity and supports disaster recovery options, helping to ensure business continuity.

FREE On-Premises Enterprise-Grade Router/Gateway

We provide a fully managed, enterprise-grade router/gateway to manage VoIP and Data traffic, (available with AireSpring Managed Connectivity).

Online Access via our AireCare™ Customer Portal

Our advanced online billing reporting portal provides 24/7 access to your billing and service details.

Free 24/7 Proactive WAN Network Monitoring Service

Our Managed Connectivity services include free 24/7 professional monitoring with the AireNMS network monitoring service. Our NOC proactively monitors your network to pinpoint and fix potential problems before they affect your business (available with AireSpring Managed Connectivity).

Personalized Service

AireSpring delivers outstanding customer service, featuring one bill and a single point of contact for all your service needs.

AireSpring has received numerous industry awards for "Product of the Year," "Best Telecom Deal," "Members Choice Top Reseller," "Best in Show," and "Top Channel Program."
