

Toll-Free Management Portal

Self-Management Portal Gives Customers the Ability to Make Routing Changes in Real Time

AireSpring is enhancing our toll free service with a self-management portal that gives you the power to make routing changes. Our toll-free portal puts control back in your hands, giving you the maximum flexibility to adapt to changes in real time.

As part of AireSpring's award-winning services, our toll-free portal allows our users to view, set, and change the routing for all of their toll free numbers. Up to eight different routes can be set per number, and the order matters. That's why we let you decide whether to route to each one in turn, or to build a schedule that changes with the time of day, allowing you to easily and automatically handle repeated changes.

With our toll free portal, you can easily move traffic between contact centers or other locations to respond to unexpected call volume, disasters, or situations. The service is accessible from anywhere with a web browser by going through our AireCare customer service portal, allowing changes to be made instantly to ensure business continuity and disaster recovery. Our call forwarding service allows calls to toll free numbers to be routed to any number, including cell phones, providing our customers with peerless flexibility.

For more information about our toll-free management portal, and other AireSpring products, contact our channel partners, or visit us on the web at www.airespring.com

Real-time switch querying ensures accurate and current information.

THE AIRESPRING ADVANTAGE™

Fully Managed Network with QoS

Our fully managed, owned and operated IP network with end-to-end QoS provides exceptional voice quality. Multi-carrier and multi-network redundancy delivers maximum security and uptime (available with AireSpring Managed Connectivity).

Eliminate Finger Pointing Between Providers

All services are delivered by a single vendor on a fully managed network, allowing you to avoid the finger pointing that can occur when multiple vendors are involved (available with AireSpring Managed Connectivity).

Largest Available Coverage

We cover more locations than anyone else on our network, with the largest combined footprint. Local numbers are available in over 300 countries worldwide.

Reliable and Diversified Network

AireSpring's geo-redundant network provides true network diversity and supports disaster recovery options, helping to ensure business continuity.

FREE On-Premises Enterprise-Grade Router/Gateway

We provide a fully managed, enterprise-grade router/gateway to manage VoIP and Data traffic, (available with AireSpring Managed Connectivity).

Online Access via our AireCare™ Customer Portal

Our advanced online billing reporting portal provides 24/7 access to your billing and service details.

Free 24/7 Proactive WAN Network Monitoring Service

Our Managed Connectivity services include free 24/7 professional monitoring with the AireNMS network monitoring service. Our NOC proactively monitors your network to pinpoint and fix potential problems before they affect your business (available with AireSpring Managed Connectivity).

Personalized Service

AireSpring delivers outstanding customer service, featuring one bill and a single point of contact for all your service needs.

AireSpring has received numerous industry awards for "Product of the Year," "Best Telecom Deal," "Members Choice Top Reseller," "Best in Show," and "Top Channel Program."
