

AireSpring Managed Router Service

Reduce costs and maximize returns with a fully managed and configured router

The AireSpring Managed Router Service is the best way to reduce unexpected downtime and performance issues in your business network. With free 24/7/365 monitoring, the Managed Router Service will lower your capital investments and maintenance expenses, replacing high-cost repairs and replacements with a single low monthly fee. Our routers are custom-configured to your business needs, and our Network Operations Center (NOC) constantly monitors your equipment to ensure that it is fully optimized and performing at the highest possible level.

BENEFITS

Boosted Performance: AireSpring's Managed Router Service improves network operations, capacity, and efficiency by expertly maintaining customer networks.

AireSpring's Expertise: Our experts gather data and evaluate potential changes using specialized tools and applications. Any moves, additions, or changes are reviewed and implemented by our network operations team.

Failover Redundancy: If you have an existing Internet connection from cable, DSL, or another provider in your network, AireSpring can provide a failover solution for business continuity.

True hardware redundancy is available with an AireSpring Backup Router, configured using HSRP (Hot Standby Router Protocol) so that both the AireSpring Primary Router and the AireSpring Backup Router are available for use at all times.

Our Managed Router Service includes:

- Configuration
- Device testing and validation
- Smooth fault-free change implementation
- ICMP and SNMP polling every five minutes
- Automatic configuration backups
- Comprehensive hardware and software management

TOP BENEFITS OF THE AIRESPRING ADVANTAGE™

Reliable and Diversified Network

AireSpring's geo-redundant network provides true network diversity and supports disaster recovery options, allowing you to ensure business continuity.

Largest Available Coverage

From Somerset, CA to Madill, OK to Moravian Falls, NC to New York City, we cover more locations than anyone else on our network with the largest combined North American MPLS footprint.

Online Access via our AireCare™ Customer Portal

Our advanced online billing reporting portal provides 24/7 access to your billing and service details.

Escalation List Up to Our CEO

We stand behind our services 100 percent! We're so committed to ensuring complete satisfaction that we provide all our customers with an escalation list giving you access all the way up to our CEO.

Personalized Service

AireSpring delivers outstanding customer service, featuring one bill and a single point of contact for all your service needs.

Fully Managed Network with QoS

Our fully managed, owned and operated IP network with end-to-end QoS provides exceptional voice quality. Multi-carrier and multi-network redundancy delivers maximum security and uptime (available with AireSpring Managed Connectivity).

Eliminate Finger Pointing Between Providers

All services are delivered by a single vendor on a fully managed network, allowing you to avoid the finger pointing that can occur when multiple vendors are involved.

For a fully configured router that can deliver high volumes of data, improve performance, and eliminate network bottlenecks, all under the watchful eye and expert management of the AireSpring Network Monitoring Service, contact an AireSpring Channel Manager.

AireSpring has received numerous industry awards for "Product of the Year," "Best Telecom Deal," "Members Choice Top Reseller," "Best in Show," and "Top Channel Program."
