- FREE local minutes included
- FREE on-net calling between all locations utilizing AireSpring Cloud Communications services
- Aggressive Long Distance and Toll-Free rates and bundles, including unlimited Long Distance

The cost savings of VoIP delivered direct to your traditional phone system.

## TOP BENEFITS OF THE AIRESPRING ADVANTAGE

- **Experience and Stability**  
AireSpring is an established name in the industry that you can count on for your communications. We've been around for over 14 years as a profitable and debt-free company and currently process over 1 billion calls per month on our carrier-grade network.
- **Fully Managed Network with QoS**  
All the features in the world won't make a difference if your communications services are dependent on a public internet connection beyond your control. Even an SLA (service level agreement) cannot ensure or guarantee quality and reliability, or prevent latency across the public internet, which can result in poor call quality and unreliable service. We provide service over our fully managed, owned and operated IP network with end-to-end Quality of Service (QoS) for exceptional voice quality. (Available with AireSpring Managed Connectivity)
- **Eliminate Finger Pointing Between Providers**  
By having all services delivered by a single vendor on a fully managed network, you avoid the finger pointing and blame game that occurs when you have cloud communications services delivered by a different vendor than your connectivity.
- **Largest Available Coverage**  
From Somerset, CA to Madill, OK to Moravian Falls, NC to New York City, we cover more locations than anyone else on our network with the largest combined footprint. We have local numbers available in over 300 countries worldwide.
- **Free On-Premises Enterprise-Grade Router/Gateway**  
AireSpring provides a fully managed enterprise-grade router/gateway to manage VoIP and Data traffic. (Included when ordered together with AireSpring Managed Connectivity)
- **Reliable and Diversified Network**  
AireSpring's geo-redundant network provides true network diversity and supports disaster recovery options, allowing you to ensure business continuity.
- **Online Access via our AireCare™ Customer Portal**  
Our AireCare online advanced billing reporting portal gives you 24/7 access to your billing and service details.
- **Free 24/7 Proactive WAN Network Monitoring Service**  
AireSpring's Managed Connectivity services include free 24/7 professional monitoring with the AireNMS network monitoring service. Our NOC proactively monitors your network to pinpoint and fix potential problems before they affect your business. (With AireSpring Managed Connectivity)
- **Personalized Service**  
We back you up with outstanding customer service, featuring one bill and a single point of contact for all your service needs.
- **Escalation List Up to Our CEO**  
We stand behind our service 100%! In fact, we're so committed to ensuring complete satisfaction that we provide all of our customers with an escalation list giving you access to our executive management all the way up to our CEO.

*AireSpring has received numerous industry awards for "Product of the Year," "Best Telecom Deal," "Members Choice Top Reseller," "Best in Show," and "Top Channel Program."*
