

## TOP BENEFITS OF THE AIRESPRING ADVANTAGE

### Fully Managed Network with QoS

All the features in the world won't make a difference if your communications services are dependent on a public internet connection beyond your control. Even an SLA (service level agreement) cannot ensure or guarantee quality and reliability, or prevent latency across the public internet, which can result in poor call quality and unreliable service. We provide service over our fully managed, owned and operated IP network with end-to-end Quality of Service (QoS). (With AireSpring Managed Connectivity)

### Eliminate Finger Pointing Between Providers

By having all services delivered by a single vendor on a fully managed network, you avoid the finger pointing and blame game that occurs when you have cloud communications services delivered by a different vendor than your connectivity. (With AireSpring Managed Connectivity)

### Largest Available Coverage

From Somerset, CA to Madill, OK to Moravian Falls, NC to New York City, we cover more locations than anyone else on our network with the largest combined footprint.

### Free On-Premises Enterprise-Grade Router/Gateway

AireSpring provides a fully managed enterprise-grade router/gateway to manage VoIP and Data traffic. (Included with AireSpring Managed Connectivity)

### Reliable and Diversified Network

AireSpring's geo-redundant network provides true network diversity and supports disaster recovery options, allowing you to ensure business continuity.

### Online Access via our AireCare™ Customer Portal
