

AireSpring Online Meeting Video Conferencing

Smarter, faster, engaging and actionable meeting experiences.

Plug and Play

Easy to use and easy to install mobile and desktop applications. No heavy IT infrastructure or training required.

Streamline Workflows

Embed your online meetings experience into everyday applications like Google®, Microsoft® and more.

Meet Anywhere

Host and join meetings wherever you go with the Online Meeting desktop and mobile apps.

Meet Securely

Online Meeting encryption uses WebRTC standards with Secure Sockets Layer (SSL) and Datagram Transport Layer Security (DTLS) for signaling, and Secure Real-time Transport Protocol (SRTP) protocols for all data and media. Built in collaboration tools and screen sharing make it easy for participants to share content in real-time for more productive meetings.

Exceptional Value

All the features you need at a fraction of the competitor's price. We make it affordable for your entire team to host great online meetings.

ONLINE MEETING INCLUDES:

- Full HD video: 720p HD video conferencing.
- Audio: Conference call numbers and PINs are provided, so participants can join by phone or computer.
- Screen sharing: Share your screen for more interactive meetings.
- Screen annotation: Meeting participants can call out important points on a shared screen in real-time during a meeting.

ONLINE MEETING PRO ALSO INCLUDES:

- Up to 100 participants and 30 webcams supported.
- Meeting transcripts and insights:
 - ▶ Meeting hosts can transcribe recorded meetings and automatically receive transcripts with action items in their inbox.
 - ▶ Notes: Capture meeting notes in realtime—notes are automatically sent to all meeting participants.
 - ▶ Remote control: Give participants direct control of your keyboard and mouse so you can collaborate better together.
- Record meetings with **unlimited cloud storage** and sharing, so no one ever has to miss a meeting.
- **Custom branding** with company logo and personalized virtual background
