

4G LTE Wireless Internet Connectivity

Get your primary internet connectivity via AT&T's 4G LTE Wireless Data Network

For businesses that lack internet connectivity, 4G LTE Wireless Data provides data access in place of wireline connections.

Wireless Data Service is ideal for:

- **Fixed locations where wireline buildouts are too costly or where internet is needed quickly**
 - ATMs
 - Digital Signage
 - Kiosks
- **Temporary locations where it does not make sense to sign a long term contract, or where fiber has yet to be installed.**
 - Pop up retail
 - Conventions
 - Construction sites

BENEFITS

- **Service Anywhere.** Wireless data service can provide internet access almost anywhere wireline connections are not feasible.
- **Quick Activation.** Extend business reach quickly with easy and flexible implementation
- **Save Money.** Where wireline buildouts for fiber are too costly, we can provide you with cost-effective plans that meet your unique needs.

FULLY MANAGED, WHITE GLOVE SERVICE AVAILABLE

- **4G LTE BEC Cellular Enabled Modem/Router.** Working as both a modem and router, the BEC device can be configured, shipped, and managed by our engineers.
- **AireNMS Network WAN Monitoring Service.** Standard for all our managed connectivity options, your wireless service will be monitored 24/7 by our Network Operations Center.

4G LTE Wireless Internet Connectivity provides cost-effective, flexible internet access where wireline connections are not feasible.

THE AIRESPRING ADVANTAGE™

Experience and Stability

AireSpring is an established name in the industry that you can count on for your communications. We've been around for over 14 years as a profitable and debt-free company and currently process over 1 billion calls per month on our carrier-grade network.

Eliminate Finger Pointing Between Providers

All services are delivered by a single vendor, allowing you to avoid the finger pointing that can occur when multiple vendors are involved (available with AireSpring Managed Connectivity).

Personalized Service

AireSpring delivers outstanding customer service, featuring one bill and a single point of contact for all your service needs.

Online Access via our AireCare™ Customer Portal

Our advanced online billing reporting portal provides 24/7 access to your billing and service details.

Escalation List Up to Our CEO

We stand behind our service 100%! In fact, we're so committed to ensuring complete satisfaction that we provide all of our customers with an escalation list giving you access to our executive management all the way up to our CEO.

24 Hour Help Desk

Our Dedicated Help Desk is available 24 hours a day to solve problems, answer questions, and provide quality customer service.

Add a New Layer of Back Up with Wireless Managed Failover

In addition to our Wireless Data Service, we are now offering Wireless Managed Failover! This new failover solution provides an added layer of security and back up for business continuity and disaster recovery measures. If you already have a circuit with us, then adding Wireless Managed Failover is an easy, inexpensive way to protect that circuit via a powerful wireless back up connection.

Largest Available Coverage

We cover more locations than anyone else on our network, with the largest combined footprint.

Reliable and Diversified Network

AireSpring's geo-redundant network provides true network diversity and supports disaster recovery options, helping to ensure business continuity.

Free 24/7 Proactive WAN Network Monitoring Service

Our Managed Failover services include free 24/7 professional monitoring with the AireNMS network monitoring service. Our NOC proactively monitors your network to pinpoint and fix potential problems before they affect your business.

AireSpring has received numerous industry awards for "Product of the Year," "Best Telecom Deal," "Members Choice Top Reseller," "Best in Show," and "Top Channel Program."
