1

**EXPERIENCE AND STABILITY
 Family-Owned, Debt-Free
 and Profitable**

We've been in business since 2001.
 We are privately owned, debt free, profitable
 and process over 6 billion calls per month over
 one of the largest SIP networks in the USA.

2

**FULLY MANAGED NETWORK
 WITH QoS**

Call quality over the public internet
 is beyond your control.

That's why we provide service over our fully
 managed, owned and operated SIP network
 with end-to-end Quality of Service (QoS) for
 exceptional voice quality and reliability.

3

**ELIMINATE FINGER
 POINTING
 BETWEEN PROVIDERS**

By having all services delivered via a single
 vendor on a fully managed network, you avoid
 the finger pointing that occurs when you
 experience network issues or when cloud
 communications and connectivity services are
 delivered by different vendors.

4

**LARGEST AVAILABLE
 COVERAGE**

From Somerset, CA to Madill, OK to Moravian Falls,
 NC to New York City, and almost everywhere in
 between, we cover more locations than anyone
 else. Our network has the largest combined
 footprint in the USA.

5

**RELIABLE AND

AireSpring's geo-redundant network provides
 true network diversity and supports disaster
 recovery options, allowing you to ensure
 business continuity for your customers.
