

AireSpring is an Authorized Starlink Reseller

# AireSpring Managed Starlink Internet

## Fast, Dependable Satellite Broadband Internet with Proactive Monitoring and Support

Your business needs reliable internet connectivity, especially in remote or underserved areas. Starlink business internet offers low latency with fast download speeds, making it ideal as a primary or backup connection for multi-location, global enterprises.

With AireSpring managing your Starlink internet, you gain the benefits of **AireCONTROL**, our proprietary **AI-powered IT Service Management (ITSM) platform**. AireCONTROL offers 360-degree visibility, integrating all Starlink nodes into a single view alongside AireSpring's suite of solutions, including SD-WAN, SASE, Security, Firewalls, Networking Equipment, 5G/LTE, Field Services, Logistics, and UCaaS.

Additionally, you receive end-to-end support from a dedicated team of experts, including a certified solutions engineer, a dedicated project manager, and an **AirePOD Tier 3 Managed Services Engineer** who oversees implementation and ongoing support throughout the life of your contract.

## Starlink Satellite Internet

AireSpring Managed Starlink internet facilitates connectivity to SaaS applications and supports your most demanding cloud-based networking requirements with **Fast, Resilient** service **Anywhere**.

**6,000+**

Low earth orbit mesh-satellite network and growing

**40 - 220+ Mbps**

Download

**100+**

Countries served

**8 - 25+ Mbps**

Upload

**360-degree**

Network visibility & control with AireCONTROL

**Low Latency 25 - 60 ms**

Round trip for most users

## Key Benefits of the Starlink and AireCONTROL Integration

### REDESIGN

AireSpring's team of highly trained and certified engineers design your secure, integrated, future-ready network to meet your enterprise's current and aspirational needs.

### REMONITOR

24/7/365 real-time oversight of Starlink services via geographically diverse network operation centers (NOCs).

### REDEPLOY

Dedicated team of deployment experts to ensure a successful implementation including a Project Manager, Tier 3 Managed Services Engineers, and Certified Network/Security Architects.

### REALERT

Automatic alerts within 10 minutes of any changes to your Starlink network status via email or text.

### RESUPPORT

24x7x365 proactive support and response by AireSpring NOC engineers for initial triage and remote troubleshooting of Starlink issues and outages, with continuous updates to customer.

### REAUTOMATE

An AI automation tool that instantly opens support cases to resolve issues quickly.

## Additional Benefits of AireSpring Managed Starlink

Professional installation services and rapid technician dispatch for troubleshooting and maintenance.

Remote rebooting of Starlink devices and direct ticketing with Starlink.

Comprehensive inventory management of Starlink equipment for direct shipping to customer sites, including next-day delivery for replacement units.

One consolidated invoice for simplified billing fully integrating Starlink internet with a wide range of AireSpring managed services, including Connectivity, SD-WAN, SASE, Security, UCaaS, 5G/LTE and more.
